

Monticello, NY Dunkin' Donuts

New Construction

Project Summary:

This project was completed in Monticello, NY, outside of New York City. Fullerton's scope included the exterior wall panels, interior walls, roof truss system with the EIFS and Hardi-panel factory applied. The sq/ft was approximately 1,930. R. Reese Construction has utilized several Fullerton packages and his crew has been certified to set Fullerton Building Systems' packages, which they did on this store. Assembly took approximately 3 days.

Meet or Exceeding Owners Goals, Values and/or Expectations:

R. Reese Construction, LLC the purchaser and GC on this project likes the ease of working with FBS. We work with him on the development of plans and deliver the building package on schedule. R. Reese Construction likes the "one stop shop" where he doesn't have to worry about several different subs on his job-site.

Client Profile:

R. Reese Construction has good working knowledge of the construction processes on the East Coast and has done multiple QSR packages. We have worked with R. Reese Construction, LLC and his crew to make the FBS construction process safe, easy and fast.
