

Converse, TX Taco Bell

New Construction

Client:
SAT Taco, LLC

Contact:
David Fabian

Architect:
Rogue Architects

Project Specifications:
2,062 sq/ft

General Contractor:
Horizon General Contracting

Project Summary:

This project was completed in Converse, TX for SAT Taco LLC. Fullerton's scope included the exterior wall panels, interior wall panels, ceiling panels for bathroom and roof truss system. We utilized EIFS in Camelback, Rockwood Clay and Clematis. The cultured stone is Savannah Easy Fit in Vintage Wine. The building size was approximately 2,062 sq/ft. FBS had the install option and it took the crew approximately 3 days to complete.

Meet or Exceeding Owners Goals, Values and/or Expectations:

This was a new experience for SAT Taco LLC. SAT Taco LLC scheduled an on-site meeting for other Taco Bell Franchisees and Taco Bell Corp personnel to showcase the FBS System first hand. SAT Taco LLC, along with the GC and guests were impressed by the speed of our assembly and quality. By 4:00PM on the first day, the building shell was in place and were ready to start interior finish out.

Client Profile:

SAT Taco, LLC is a Taco Bell Franchisee that has stores in both California and Texas.
